

09:00 - 09:50	Arrival/Registration/Coffee
09:50 - 10:00	Opening
10:00 - 11:45	Presentations 1-3 1. Kevin Roberts (University of Leeds) 45 min <i>"The structural pathway of para amino benzoic acid from solvated molecule through solute clustering to the growth of faceted crystals"</i> 2. Ton Engwerda (Radboud University Nijmegen) <i>"Deracemization of a racemic compound by using tailor-made additives"</i> 3. Mohsin Qazi (University of Amsterdam) <i>"Influence of wetting on salt creeping"</i>
11:45 - 12:30	Poster Pitch
12:30 - 13:30	Lunch, Posters
13:30 - 15:00	Presentation 4 -6 4. Nico Sommerdijk (Eindhoven University of Technology) <i>"Understanding particle based crystallization in magnetite formation"</i> 5. Arjun Wadhawan (University of Amsterdam) <i>"Understanding Methane Hydrate Nucleation using Advanced Molecular Simulation"</i> 6. Krassimir Velikov (Unilever Vlaardingen R&D) <i>"Colloid nanoconfinement as a tool to suppresses crystallisation"</i>
15:00 - 15:30	Coffee/Posters
15:30 - 16:15	Presentation 7 7. Daniël Vanmaekelbergh (Utrecht University) 45 min <i>"Formation of atomically coherent honeycomb structures by interfacial assembly of colloidal nanocrystals"</i>
16:15 - 16:20	Closing Remarks
16:20 - 17:00	Labtour UvA/Closing drinks
